1 Uvod u sajt

1.1 Opis funkcionalnosti

- Dohvaćanje podataka iz JSON fajlova putem AJAX-a
- Dinamički ispis kartica sa proizvodima, ispis menija za filter/sort/search, FAQ sekcije i korpe.
- Local Storage implementiran u funkcionalnu korpu sa dodavanjem, uklanjanjem i kupovinom proizvoda na stranici "Products"
- Obrada forme sa kompletnom validacijom na stranici „Contact“ i summary proizvoda koje je korisnik odabrao na stranici "Products" (Local Storage)

1.2 Template

Kao template koristim moj sajt koji je korišćen za predmete Praktikum iz Web dizajna i Web programiranje 1.

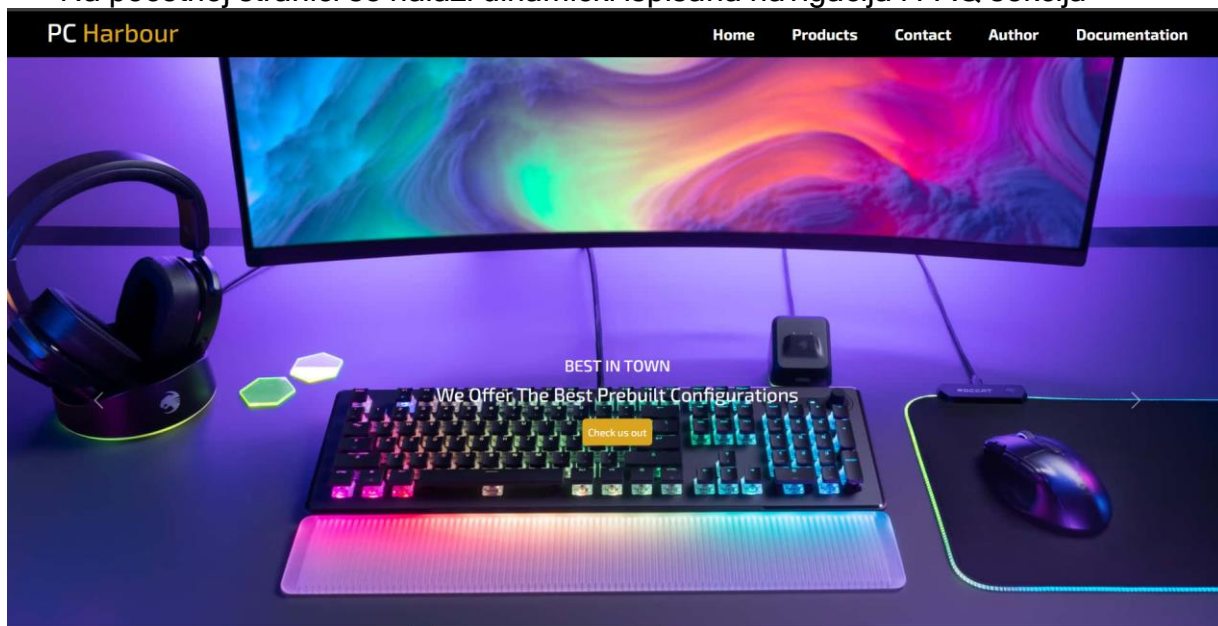

1.3 Jezici

Sajt je pravljen koristeći HTML, CSS, Bootstrap, JS, JQuery, JSON i XML.

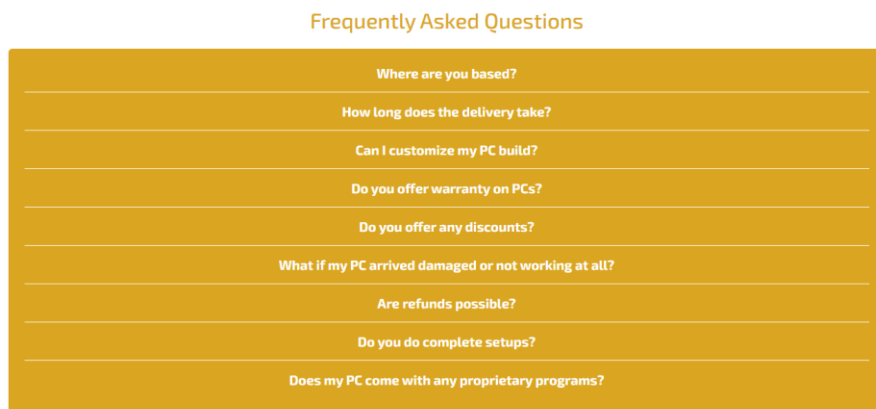

2 Slike sajta

2.1 Home

Na početnoj stranici se nalazi dinamički ispisana navigacija i FAQ sekcija

Slika 1.

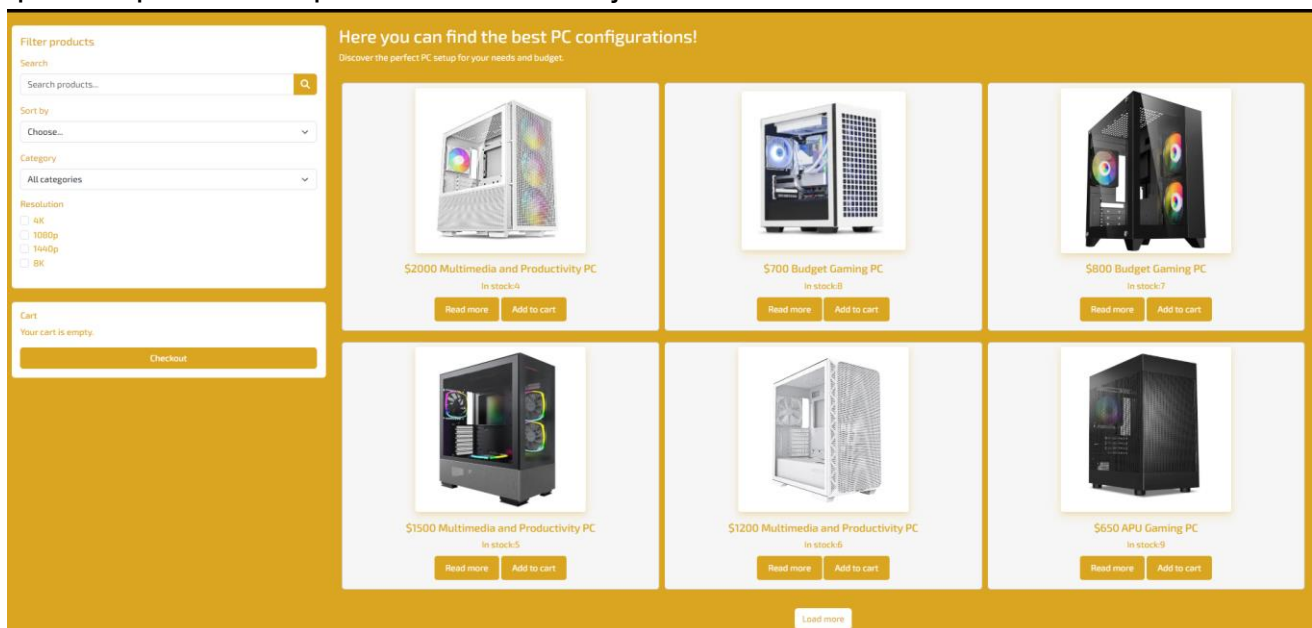

Slika 2.

FAQ sekcija Home stranice je napravljena koristeći osnovni JQuery. Korisnik pojedinačno otvara delove sekcije, a nakon što otvori jedan deo, prethodno otvoreni deo se zatvara.

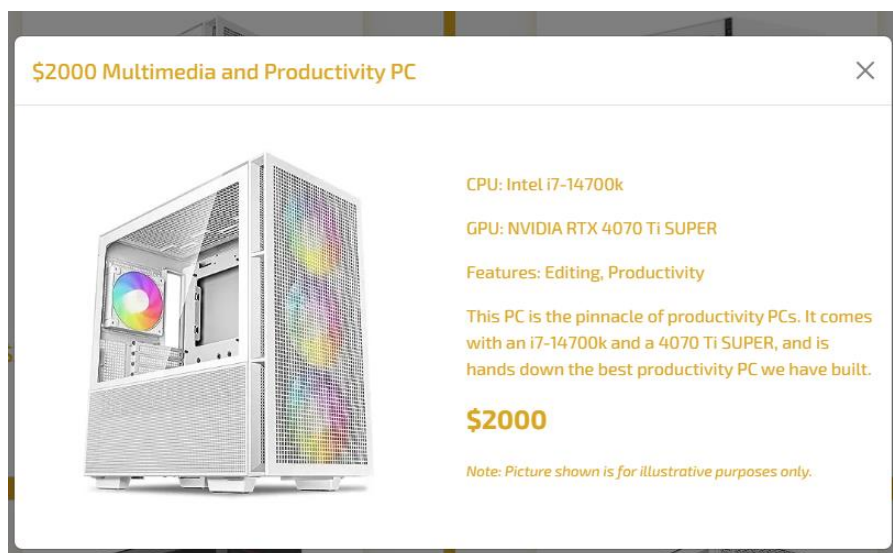

2.2 Products

Na stranici proizvodi su dinamički ispisani koristeći JSON/AJAX u vidu slike, naslova, read more dugmeta napravljenog koristeći Bootstrap modal i add to cart dugmeta koje dodaje proizvod u korpu. Ispis proizvoda je ograničen load more dugmetom, koje nestaje prilikom prikaza svih proizvoda iz JSON fajla.

Slika 3.

Nakon klika na read more dugme, modal iskače i prikazuje glavne komponente (procesor i grafička), karakteristike proizvoda i na kraju opis proizvoda, pored slike i imena.

Slika 4.

Filter products meni sadrži filter po pretrazi, po kategorijama i rezoluciji koju kompjuter može da dostigne i klasično sortiranje po nazivu i ceni.

Choose...

▼

Category

All categories

▼

Resolution

☐ 4K

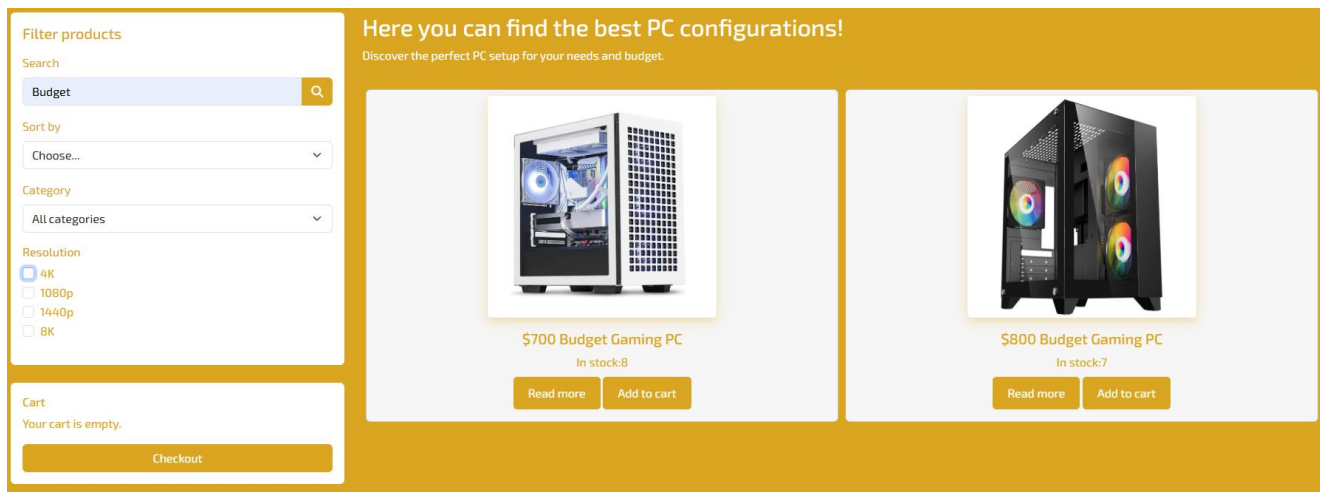

☐ 1080p

☐ 1440p

☐ 8K

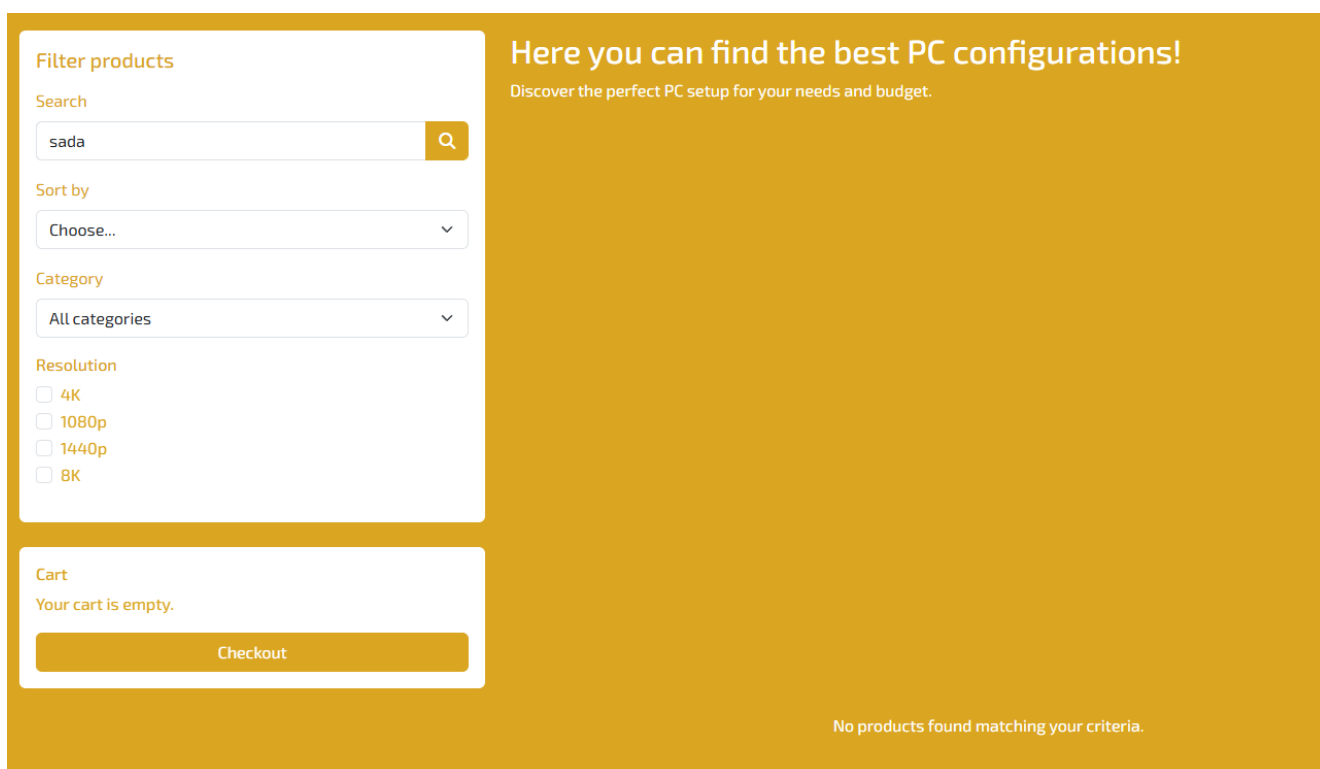

Slika 6.

Prilikom pretrage, prikazuju se samo proizvodi koji sadrže deo imena koje je korisnik ukucao u search bar.

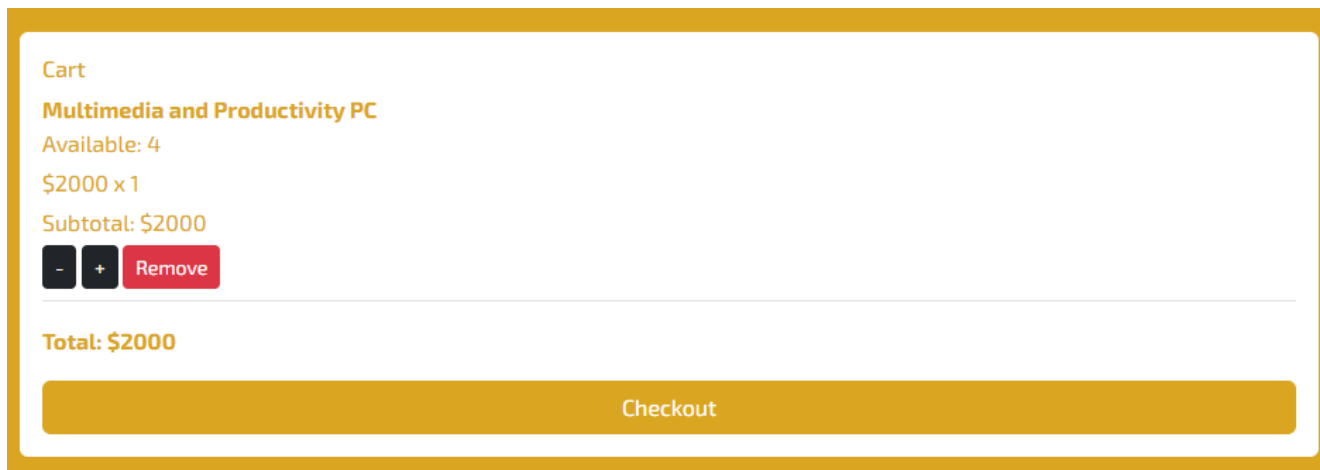

Slika 7.

Ukoliko korisnik unese nepostojeće ime proizvoda ili kombinuje kategoriju proizvoda sa rezolucijom koju ne može da dostigne, stranica izbacuje poruku da ne postoje proizvodi sa kriterijumima koje je uneo/odabrao.

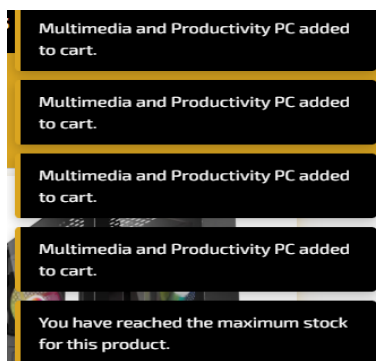

Slika 8.

Nakon klika na add to cart dugme, odabrani proizvod se dodaje u korpu i ispisuju se ime proizvoda, njegova dostupnost (in stock), cena proizvoda * količina koju korisnik odabere, ukupna cena narudžbine, dugmići za dodavanje, smanjivanje i kompletno uklanjanje odabranog proizvoda i dugme koje dalje vodi na kontakt stranicu sa formom.

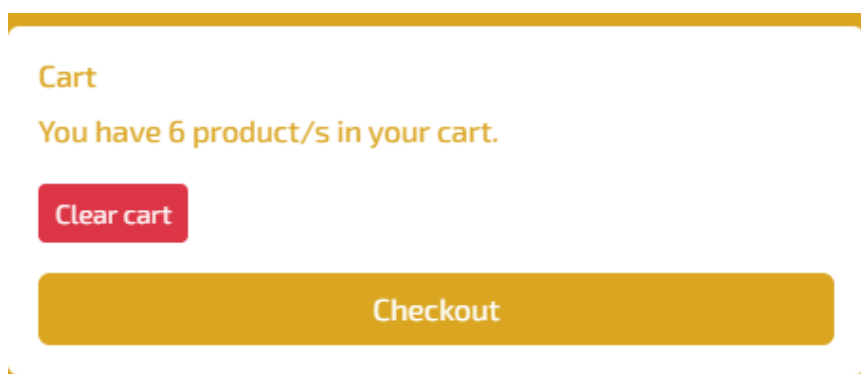

Slika 9.

Prilikom dodavanja proizvoda, poruka iskače u gornjem desnom uglu ekrana koja potvrđuje da je proizvod unet, a prilikom pokušaja dodavanja proizvoda preko dostupne količine, poruka obaveštava korisnika da je korisnik došao do maksimalne količine tog proizvoda kojeg je odabrao.

Slika 10.

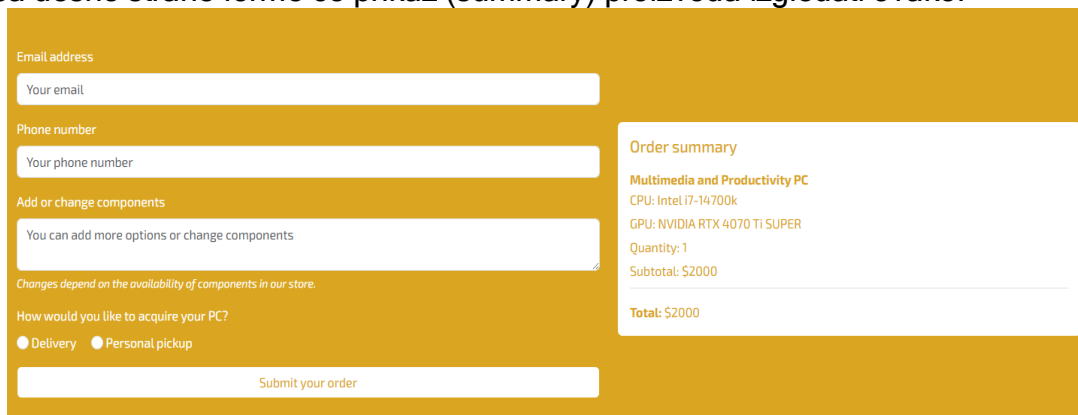

Ukoliko korisnik odabere više od 3 različita proizvoda, korpa prestaje da prikazuje prethodno navedene podatke, i nastavlja da predstavlja samo količinu proizvoda u formatu ukupne količine proizvoda.

Slika 11.

2.3 Contact

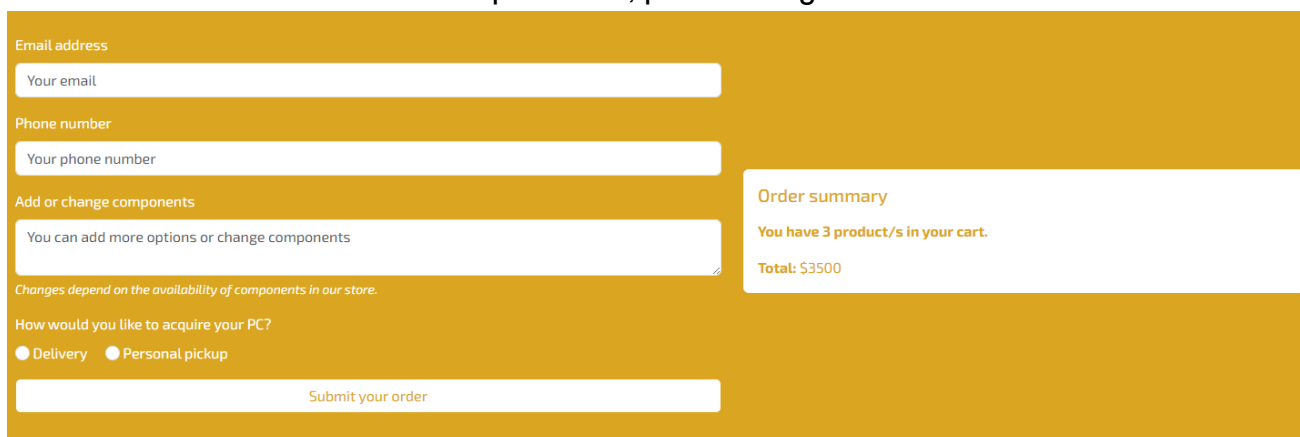

Prilikom klika na dugme checkout na stranici Products, korisnik je redirektovan na stranicu Contact. Ukoliko je korisnik prethodno u korpu stavio manje od ili 2 proizvoda, sa desne strane forme će prikaz (summary) proizvoda izgledati ovako.

The screenshot shows a contact form on a dark blue background. On the left, there are three input fields: 'Email address' with placeholder 'Your email', 'Phone number' with placeholder 'Your phone number', and 'Add or change components' with placeholder 'You can add more options or change components'. Below these is a small note: 'Changes depend on the availability of components in our store.' Then, a question 'How would you like to acquire your PC?' is followed by two radio buttons: 'Delivery' (selected) and 'Personal pickup'. At the bottom is a wide 'Submit your order' button. On the right, an 'Order summary' box contains the following text: 'Multimedia and Productivity PC', 'CPU: Intel i7-14700k', 'GPU: NVIDIA RTX 4070 Ti SUPER', 'Quantity: 1', 'Subtotal: \$2000', and 'Total: \$2000'.

Slika 12.

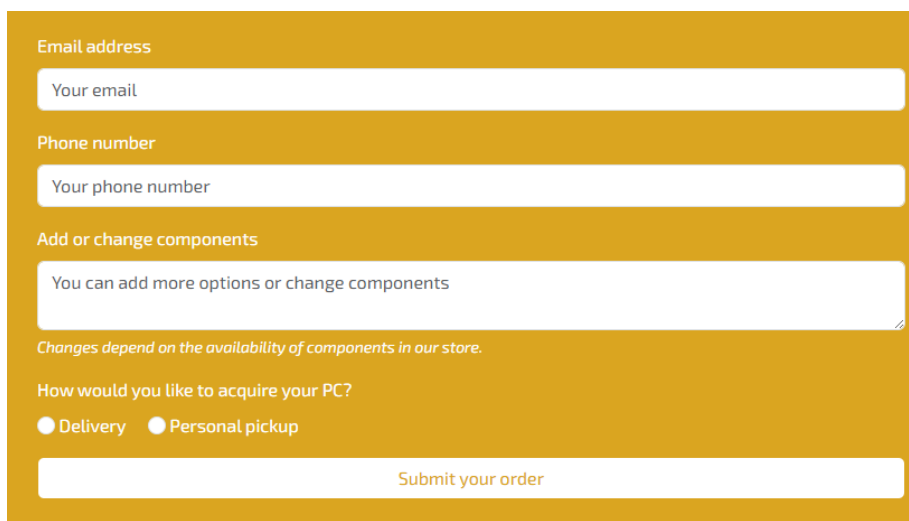

Ukoliko korisnik izabere više od 2 proizvoda, prikaz će izgledati ovako.

This screenshot is similar to the previous one but shows a different 'Order summary'. The 'Email address' field now has a red error message: 'Email address is not valid'. The 'Add or change components' field has a red error message: 'You can add more options or change components'. The 'Order summary' box on the right now says: 'You have 3 product/s in your cart.' and 'Total: \$3500'. The 'Submit your order' button is still present at the bottom.

Slika 13.

Sama forma sadrži polja za email, broj telefona (po formatu Republike Srbije (+3816x ili 06x), unos dodatnih zahteva koje korisnik možda bude imao (dodavanje ili zamena komponente...), radio dugmad gde korisnik bira opcije preuzimanja proizvoda (dostava ili preuzimanje u prodavnici) i na kraju submit dugme

This is a detailed view of the contact form. It features a dark blue background with white text and input fields. The form includes: an 'Email address' field with placeholder 'Your email'; a 'Phone number' field with placeholder 'Your phone number'; an 'Add or change components' field with placeholder 'You can add more options or change components'; a small note: 'Changes depend on the availability of components in our store.'; a question 'How would you like to acquire your PC?' with two radio buttons: 'Delivery' (selected) and 'Personal pickup'; and a wide 'Submit your order' button at the bottom.

Slika 14.

Ukoliko korisnik odabere opciju za dostavu, forma će se proširiti i otvoriti sledeće opcije.

How would you like to acquire your PC?

☒ Delivery ☐ Personal pickup

Address

Your address (street, city, zip code)

Select payment method on delivery

☐ Cash ☐ Card

Slika 15.

Ukoliko korisnik ne popuni jedno ili više od ovih polja ili nema nikakvog proizvoda u korpi, greške će biti ispisane nakon klika na dugme „Submit your order“

```

[
  {
    "question": "Where are you based?",
    "answer": "We are based in Belgrade, Serbia."
  },
  {
    "question": "How long does the delivery take?",
    "answer": "Delivery usually takes 3-5 business days, with special cases being holidays and possible stock shortages."
  },
  {
    "question": "Can I customize my PC build?",
    "answer": "Yes, you can add or change components depending on availability."
  }
]

```

```

},
{
  "question": "Do you offer warranty on PCs?",
  "answer": "All our PCs come with a 2-year warranty."
},
{
  "question": "Do you offer any discounts?",
  "answer": "Of course! Holiday, BTS, special events, we even have discounts for new and regular customers!"
},
{
  "question": "What if my PC arrived damaged or not working at all?",
  "answer": "Our technicians always test the PCs, while our packaging teams make sure that the PCs do not get damaged in transport and will also take a picture of how the PC should arrive. Any tampering and/or damage should be immediately reported, and we will resolve the issue as soon as possible."
},
{
  "question": "Are refunds possible?",
  "answer": "Refunds are possible on components. In extreme cases, you should refer to the question above."
},
{
  "question": "Do you do complete setups?",
  "answer": "No, we only make configurations you see on our website and add any changes, if any are mentioned at all."
},
{
  "question": "Does my PC come with any proprietary programs?",
  "answer": "PCs that we make come with a preinstalled OS, mostly Windows 11 or Windows 10, but you can also add any other programs or different operating systems. However, the price will increase with the amount of programs you add, as we follow prices shown at the time."
